NOT INFLUENCED BY POLITICS

Insurgent Victories in Iowa and Kansas Do Not Affect Market-Trading Chiefly in Hands of Speculators-Bank of England Shows Decrease in Ratio of Reserve.

New York, Aug. 4.-Price movements in the stock market to-day closely paralleled the course of the market yesorday with the exception that the market closed with more numerous net gains to-day, although trading was even less active, and the price movements were in narrower range.

In the morning, stocks were offered for sale on the theory that the victory of the insurgents in Iowa, following closely their success in Kansas, might induce further liquidation. No liquidation of any consequence developed, and in the arter- Amal. Copper. noon the same traders, who had sold in the morning, bought the stocks back at somewhat higher prices.

worried over political developments to the point of parting with his holdings, their position for the time being.

For the first time in many days there was no particular stock in which there was evidence of liquidation. The market seemed to be thoroughly sold out, and aggresive buying being again lacking, it seemed to have reached an almost exact being little in excess of 300,000 shares.

per cent last week in the ratio of reserve change in its condition was followed b an advance in open market discount rate

Call Money a Drug.

In this city call money, principally account of the slack demand from sto exchange borrowers, was a drug upo the market and time money was a shad easier. Firmer money abroad and easimoney here were followed by an advance of fifteen points in sterling exchange rates, which diminished the probabili of an early continuation of the gold in port movement, just as money devole ments of late have diminished the ne for more gold from abroad.

Wheat and corn were somewhat fire er, though no unfavorable change weather conditions were reported, cotton options for the new crop month declined as much as they gained yeste day, when extremely hot and dry weather was reported from sections of the Southwest. These sections were to-day relieved by rain, and cotton prices close at about the same level as on the day o

the recent government crop report. The bond market on the stock ex change was dull, as was the stock mar ket, but two new offerings of securities attracted considerable attention; not be cause of the size of the issues, but because they were the first new issues to be brought out in two weeks.

Excess of public debt receipts......

New York, Aug. 4.—Money on call at the stock exchange to-day opened at 1½ per cent, highest 1%, lowest 1, closing 1 per cent. Most of the day's loans were made at 1½ per cent.

Time money continued rather quiet. Bids of 4% per cent and 4% per cent for January money did not prove attractive to lenders, who held their funds quite firmly at 5 per cent. Four months' money loaned at 4% per cent in moderate amounts. Rates, 3%a3% per cent for sixty days, 3%a4 for ninety days, 4%a4% for four months, 5 per cent for five months.

GRAIN AND PROVISIONS.

Quotations furnished by W. B. Hibbs & Co.,

Chicago, Aug. 4 .- Wheat opened strong and ruled 108,500 in some cases small price concessions steady until noon. Local buyers were bullish, with commission houses good sellers on the advance. in some cases small price concessions were made to secure sales. The bonds taken were Metropolitan Railroad 5s, Po-2313,700 tomac Electric Consolidated 5s, and the first mortgage bonds of the same company, all of which except the first were bid in at concessions. Stocks sold in tenshare lots and smaller fragments, mostly at current rates.

Bond houses continue to complain of duliness. They do not attempt to disguise the fact that investors are holding aloof from the market, although they console themselves with the thought that sooner or later the prevailing high income return will tempt buyers. It is unquestionably true that crop uncertainty is responsible in a large measure for the lack of demand for securities, as it also is responsible for the halting attitude of general trade.

COTTON MARKET.

Quotations furnished by W. B. Hibbs & Co. members of the New York Stock Exchange, Hibbs Building.

New York, Aug. 4.—Covering of shorts by Wall street houses on the insufficiency of rain in Texas or Oklahoma and more buying by the bull interests, especially in December and January, rallied the market in the early afternoon to within 10 and 15 points of yesterday's closing. Renewed scattering liquidging tion then developed, which kept the market in a quiet and steady condition the balance of the session.

The immediate future course of prices all depends on the extent of the rainfall expected in the Southwestern portion of the belt the next two days.
